

Date	9 November 2022
Team ID	PNT2022TMID47361
Project Name	Project – Signs with smart connectivity for better road safety
Maximum Marks	4 Marks

The screenshot shows the IBM Watson IoT Platform interface. The main heading is "Browse Devices". Below it, there are two buttons: "All Devices" and "Diagnose". A paragraph explains that the table shows a summary of all devices that have been added, which can be filtered, organized, and searched. Below this is a search bar labeled "Search by Device ID". To the right of the search bar is a "Device Simulator" toggle switch. Below these elements is a table with the following columns: "Device ID", "Status", "Device Type", "Class ID", and "Date Added". The table is currently empty, and a message at the bottom says "You don't have any devices." The right sidebar shows the user's profile with the name "tctm6s", ID "tctm6s", and "Bluemix Free". It also includes links for "Service Status", "Terms", "Privacy", "Support", "Blog", and a "Sign Out" button. The bottom of the screen shows a Windows taskbar with the search bar and various application icons.
